#### ► SYNERGY THE HVAC CONSULTANCY

ClimaWISE revolutionises HVAC monitoring in yachting. Synergy The HVAC Consultancy and Delta Digital introduce ClimaWISE, an advanced data monitoring platform bringing unprecedented transparency to yacht HVAC systems. ClimaWISE opens the black box of any HVAC system. Unlike traditional diagnostic methods, which often fail to identify the root causes of performance issues, ClimaWISE leverages AI-driven analytics to continuously monitor over 1.5 million data points per day, covering the entire HVAC system, chiller units, pumps, air handlers, and other critical components. By detecting the slightest anomalies in real time, it provides deep insights into system behaviour, optimising performance and preventing inefficiencies that would otherwise go unnoticed. Environmental fluctuations, system load variations

and operational shifts are all accounted for, without the guesswork. The results? 10% to 35% energy savings, significant reductions in operational costs, lower energy waste with no compromise on performance. ClimaWISE installs seamlessly in new builds or retrofit with no disruption to onboard operations. Most setups can be completed remotely, eliminating unnecessary hardware and costly onboard visits. Beyond HVAC-R, the system extends its capabilities to main engines, batteries, water makers, and more, making it an essential tool for optimising multiple onboard systems. With ClimaWISE, you're not just monitoring, you're mastering efficiency.

#### ► AMERICAN YACHT AGENTS

American Yacht Agents is a strong advocate for the yachting industry in the USA, working closely with both federal and state regulatory agencies. Facilitating disposal of regulated garbage with Department of Agriculture and CBP, vessel entry and clearance and staying up to date on the latest changes and digital options. As captains themselves, the goal is to simplify the lives of captains and crews visiting the U.S. They will handle your shore side support and port state compliance while in U.S. ports. The company are based in South Florida, but have a team, including other agents that can assist you all the way through the Great Lakes.
